3. Fields:	Scientific Name field shows taxonomic names declared by importers on electronic import declarations; left blank when no taxonomic names provided.		
	Product Description field shows general description of animal products, which may sometimes include common and scientific names as declared by importers on electronic import declarations.		
	Country of Origin and Place of Export: Country codes declared on import declarations (electronic and paper); for list of country codes and corresponding countries, see: Appendix H, List 2: <a href="https://www.cbsa-asfc.gc.ca/publications/dm-md/d17/d17-1-10-eng.html#a13">https://www.cbsa-asfc.gc.ca/publications/dm-md/d17/d17-1-10-eng.html#a13</a>		
	Animal Source: (captive reared, wild, etc.) unable to ascertain from import declarations; not reported		
	Purpose of Import: unable to ascertain from most import declarations; not reported		
4. General:	Scientific and common names for those species declared on paper import declarations are not accessible, hence the frequent 'unknowns' under the Product Description field.		
	The number of individuals imported as declared on paper import declarations are derived from electronic records based on Harmonized System (HS) codes and reported for each unique combination of country of origin/place of export.		
	In some cases for which quantity and product description data were highly variable, examples of product descriptions and species names are provided without quantities, e.g., 670100.
